

Apple® MessagePad® Cellular Phone Solutions

For MessagePad 120 and MessagePad 110 users

Now you can connect your cellular phone to a MessagePad 120 or 110 to wirelessly send and receive faxes* and e-mail, access on-line services, and connect to your desktop PC. This document explains current solutions available for specific cellular phone models. It will be updated as more solutions become available.

Here's what you need:

- MessagePad 120 w/ Newton 2.0 or 1.3 OS or MessagePad 110 w/ Newton 1.3 OS (system update 345025)
- Cellular Phone and Service
- Cellular PC Card Modem
- Apple Modem Enabler**
- Modem Setup Package
- Connecting Cable

ATT 6650, Nokia 2120	Nokia PC Card Modem (DTP-3NA)	Nokia DTP-3NA Cellular	DKH-3A

Component Descriptions

- **Apple MessagePad** — The MessagePad provides mobile business professionals with tools for managing and communicating information both in and away from the office, and the capability to seamlessly share information with Mac™ OS and Windows personal computers. To locate a MessagePad reseller near you, call 1-800-809-0260.
- **Cellular Phone and Service** — These items provide the capability to wirelessly communicate. Check your local cellular phone retailers and service providers for product availability and pricing information.
- **Cellular PC Card Modems** — These plug into your MessagePad PCMCIA slot. For more information on specific modems, call:
 - Motorola's Cellular Information Center — 1-800-331-6456
 - Nokia — 1-800-666-5553.
- **Apple Modem Enabler** — This software, in conjunction with Modem Setup Packages, allows the use of modems with your MessagePad. The Modem Enabler is pre-loaded on all MessagePad 120 units with the Newton 2.0 OS. The software is also available on-line in the areas described below.
- **Modem Setup Packages** — Modem Setup Packages enable a MessagePad to configure modems. Each modem has its own Modem Setup Package. Packages are available within the Modem Enabler file that is posted on-line in the areas described below:
 - eWorld:** Shortcut "Newton" Software Exchange ► Official Apple Software ► Newton System Updates
 - AppleLink:** Newton ► World of Newton ► Newton Software Updates
 - American OnLine:** Keyword "Newton" Software Libraries ► Apple Software
 - CompuServe:** Go "APLSUP" File Library #14 or Go "Newton" File Library #8
- **Connecting Cable** — This connects your cellular phone to a cellular PC Card modem. For information, call:
 - Motorola's Cellular Information Center — 1-800-331-6456
 - Nokia — 1-800-666-5553.

* Fax receive capability is only available on the MessagePad 120 with Newton 2.0 OS.

** The Modem Enabler is only required for a MessagePad 110 or 120 running the Newton 1.x OS.
